

One Step On The Moon (Extended Version)

One step on the moon
Was a giant leap for mankind,
One step on the moon
And what did the astronauts find?

- 1 They found rocks and craters and moon dust
But they didn't find a sign of life,
They didn't get to meet the man in the moon,
They didn't even meet his wife!
They left their footprints behind on the moon
With the flag of the U.S.A.,
And everyone heard the wonderful news,
The Eagle's landed today,
The Eagle's landed today.

Repeat verse 1

INSTRUMENTAL

- 2 So they stuck their flag in the moon dust,
With a message for all to see,
That men from the planet Earth had been there,
In July '69 AD.
They both had fun as they bounced all around
With the strange lunar gravity
And everyone saw the men on the moon,
As proud, as proud as can be,
As proud, as proud as can be.

One small step for a man,
One giant leap for mankind.
